## Tips for Great Reviews

- Be descriptive! Write about what you thought about the book. Tell people **why!** Finish this sentence: I loved/hated this book because...
- Edit! Avoid spelling, grammatical, and punctuation errors.
- Write about the material, not yourself. Include how it made you feel, but the review is about the item, so stick to the subject matter.
- Make yours different! Some items have over 100 reviews. Make yours count by writing something unique.
